

College Trail/Cambridge Detention Pond Invasive Plant Application Notice – 2014

The Grayslake Community Park District has contracted with Marine Biochemists to perform a chemical application for continued control of invasive plants such as milfoil for 2014. The application will be performed on April 23, 2014 with a rain date of April 24, 2014. The following restrictions will apply:

No use of water for irrigation 30 days

No fish consumption for 7 days

No swimming for 7 days

The need for any additional applications will be determined throughout the year and similar notices will be posted and distributed if restrictions apply. Please contact Jeff Nehila at the Grayslake Community Park District at (847) 223-7529 if you have any questions.
