

**Press Release**  
**College Station Pond Algaecide Application**

Marine Biochemists will be applying another algaecide treatment the week of July 22 – 26, 2013 to the College Station pond. There are no restrictions for swimming, fish consumption or irrigation from this application. In addition, Parks Department crews will be removing decaying milfoil from the surface of the pond throughout the next few weeks. Any questions, please contact Jeff Nehila, Executive Director, Grayslake Community Park District at (847) 223-7529 or [inehila@glpd.com](mailto:inehila@glpd.com)
