

COLLEGE TRAIL/CAMBRIDGE DETENTION POND INVASIVE PLANT APPLICATION NOTICE – 2015

The Grayslake Community Park District has contracted with Marine Biochemists to perform a chemical application for the control of invasive plants such as milfoil for 2015. The application will be performed on April 15, 2015 with a rain date of April 16, 2015. The following restrictions will apply:

- No use of water for irrigation for 30 days
- No fish consumption for 7 days
- No swimming for 7 days

Due to the effectiveness of the application in 2014 and the expected results of this year's application, the pond may be moved to a 2 to 3 year rotation application program from this point on. Notices for any future applications will be posted on the District's web site at www.glpd.com, letters will be distributed to adjacent landowners and signs will be posted at each park district owned property. Please contact Jeff Nehila at the Grayslake Community Park District at (847) 223-7529 if you have any questions.
