The Athletic Supervisor reserves the right to interpret and/or change any of the rules at his/her discretion. In all cases, the Athletic Supervisor has the FINAL SAY regarding all rules, i.e. league structure. However, teams being affected by any rule change will be notified as soon as possible.

CO-REC SPECIFICS RULES

1. Co-Rec uses a 14" Mush Ball
 2. Men Walking Rule – “If a walk is intentional to a male batter (3 straight balls called with no strikes called or swings), that batter will be awarded 2nd base and the following female batter has the option to bat or walk. If a strike is thrown during the at bat, this walk rule will not be in effect. If the batter is “unintentionally” walked, he will only be awarded first base.
 3. A “NO CONTACT” rule, rather than a “NO SLIDING” rule for base runners will be used. A base runner can run into a base, but he/she cannot contact a fielder – if incidental contact is made, the base runner is out. If flagrant contact is made, the base runner will be ejected from the game. **All base runners must touch the orange first base. If there is contact between the fielder and base runner the base runner will be called “out” if he/she did not touch the orange base.**
 4. Line-Up Regulations –
 - 10 players will be played in the field, with each position alternating male/female. (A minimum of 8 players, 4 men and 4 women must be present at the start and end of the game.)
 - ***All positions must be alternated in field by gender – with pitcher/catcher of opposite gender.***
 5. Continuous Batting Rule – We will use a continuous batting rule stated as follows: “Your team can bat as many persons as desired as long as the batting order does not change. You can have an abundance of women in the batting line up and you must declare in advance of the start of the game how many players you are batting to the umpire and opposing team captain. The players in the batting order will have free substitution in the field (can change any players in field). If you have substitutes that are not in the batting order (extra male players), these players must follow the ASA rule of substitution which is “any of the starting players may be substituted or replaced and re-entered once, providing players occupy the same batting positions whenever in the lineup.”
 - If team has 9 players with more men than women. There will be an automatic out at the end of the order. Team must have equal number of men/women or more women is allowed.
 - If team has 11 players (6 men and 5 women), must still bat woman/man/woman/man etc. Must be agreed upon by captains and umpire prior to game start. If not agreed upon then team must play with 10 or take an out at end of batting order.
- NOTE: If a team is using the continuous batter rule, and a player or players are removed for any reason during the course of the game and no substitute is available, the player removed shall be scored as an out when his/her turn comes up in the batting order. In the event this occurs, the player immediately following the removed player is simply by-passed as a batter, but may still remain in the game as a defensive player.
6. Men cannot wear gloves; women can wear gloves if desired.
